Notice to Subscribers.

Subscribers will confer a favor by forwarding information to this office when their papers are not duly delivered. This will greatly aid us in our efforts to determine where the fault lies.

CHIPS.

Make hay while the sun shines.
Fair Lana again holds her court.
The District Court will hold a regular session on Friday.

There were 21 emigrants bound eastward yesterday, via the D. & R. G.

A large number of tourists arrived yesterday at the Continental hotel.

Are you going to Soda? The excursion train leaves at 4:40 p. m. to-day.

Chas. O. Whittemore was yesterday reappointed a notary public by Governor Murray.

There is no water now in the City Creek aqueduct below the Main street bridge.

Wheat harvesting is the present labor of the farmer in this and immediately adjacent counties.

And row is the reason when yearling suffers from the gripes, through devouring the small, sour and unripe apples.

The sprinkling carts are now laying the dust in good order along the length and breadth of 1st south street to 7th east.

The objections constantly being raised against the Salt Lake and Fort Douglas railroad are almost enough to discourage the company.

The water has been turned off from the Jordan and Salt Lake canal, to enable the water master to make repairs to check the seepage.

The metal roof of the big Co-op store building is being coated with tar paint, giving it a nicer appearance than the reddish brown mineral paint color.

Coffee John has the first New York oysters of the season and they are prime. The enterprise of John is matchless.

Any one knowing anything of the whereabouts of Calder's stray monkey, will confer a favor by leaving information at the music store, as the animal is a pet.

The formidable defenses thrown up by some of the citizens for protection against burglars, seem to offer but poor encouragement to the festive knights of the skeleton key.

Could a burglar who got a lead of buck-shot in his stomach instead of the diamond necklace he was expecting to put in his pocket be said to have played a game of consequences?

If Fay Templeton's tremendous business continues in Denver, she may postpone her engagement here again. But she and her company of 35 persons will probably arrive by the U. P. on Friday.

The A. O. U. W. have paid to Mrs. E. White the sum of \$2,000, the insurance on the life of J. C. White, her son, who was killed on the D. & R. G. P. railway last - Park Record.

James Little, of Garfield county, an extensive sheep man, is in town with a heavy cargo of wool. Last year he raised 1,500 lambs, and this year will have 2,500. There is more money in this than in a mine.

The Opera House Band excursion to Black Rock and Gardfield promises to be one of the best and most popular of the season. It will occur on Thursday, when three trains will run. The entertainment includes a concert and hop in the afternoon and a ball in the evening.

The excursion to Soda Springs leaves this afternoon at 4:40. Indications are that it will be largely patronized, a great number of our citizens having already secured transportation to the land where the crystalline and aqueous salutaris doth greatly abound. A pleasant trip to all.

We are interested Yourself

We are prepared to sell to families at the "Occidental" Pure California and Imported Wines at reduced prices. The best of Liquors and Cigars always on hand. You will become convinced by a trial.

IN COUNCIL.

What the Town's Parents Did Last Night.

After reading and approving the minutes of last meeting, the Council proceeded to transact the following business:

A petition was read from citizens of sixth street, asking that the Salt Lake & Fort Douglas railroad be not granted a right of way along that street, stating that the engines would endanger their property, and the presence of the track would depreciate its value; 210 signatures. Referred to committee on streets and alleys.

Petition of Morris & Cullen, of the Salt Lake City Brewing company, asking that their license be transferred to said company. Referred to committee on license.

Petition asking for a drain to prevent seepage from the canal damaging property of petitioners. Granted, to be done under direction of the street supervisor.

Petition of the Silver Plate Circus asking for a reduction of license. It was moved and seconded that the petition be not granted, and the recorder instructed to inform the company. Carried.

Petition of James Howells asking remission of license for keeping a job wagon. Petition was granted.

Petition of William Yates stating that he is a cripple and asking the remission of his license for keeping a job wagon. Referred to committee on license.

Applications for liquor license: R. Alf and Henry Bahringer. Granted.

Reports of city officers.—The Watermaster reports that the flume he was instructed to put in on the property of Z. C. Mitchell and others had been done. Approved.

The committee on Jordan and Salt Lake Canal with mayor and watermaster associated, report in regard to the seepage so much complained of by citizens of the First Ward. The committee is of opinion that the dampness of the land is not caused altogether by seepage from the canal, but by the many springs along the beach etc. The report was received and approved.

The committee on police report that they found the accounts of the police court correct. Adopted.

The committee on fire department recommend that the petition of W. J. Silver for the exclusion of his property from the fire limit, be not granted. After some discussion the report of the committee was adopted.

The committee on elections nominate Joseph A. Peck to succeed his father, the late scaler of weights and measures in that office. The Council adopted the nomination.

The same committee also reported suitable resolutions of respect to M. H. Peck, deceased, which were adopted.

A verbal report was received from the committee on license granting remission of two licenses, and refusing one. Adopted.

APPROPRIATION: Supervisor of streets, \$1,000.

Councilor Wells moved that the street leading to the Utah and Nevada railway be sprinkled without delay. Adopted.

Adj. urned.

Police Court.

James Johnson was arrested for obliterating advertising bills. Dismissed for want of prosecution.

Wm. Maxwell, a soldier, was fined \$10 for being drunk and trespassing.

Adam George for a drunk, \$5.

Milt Davis and Angus M. Cannon Jr. pleaded guilty to the charge of larceny, and were condemned to 30 days in jail and a fine of \$50 each.

They were charged with unloading a set of harness from the barn of R. T. Burton.

The case of Sheridan and Quillivan was continued yesterday, but no conclusion was reached.

The Showell case was set for Thursday next, at 10 o'clock.

The Arcade Chop House, which has been closed for sometime, reopened yesterday for business, under the able management of Messrs. Flynn Bros., who purpose making of it a first class family restaurant in every respect.

There are a great many people in Salt Lake who would like to spend their summer "out" at Soda Springs if it were not that the railroad fare is too high and the train accommodations very poor. It would pay the company to fix a lower rate during the summer season, and to furnish a few conveyances en route.

HE TOOK THE CAKE,

Or at Least the Evidence is Against Him.

A certain gentleman of this city had occasion to leave home the other day to meet his wife, who had preceded him on a visit to friends.

Before leaving, however, he securely locked, or thought he did, every door and window, including the coal shed.

Then he marched forth, secure in his mind at least from the gay and festive burglar.

On his return home, however, the coal shed door was found to be wide open, with evidence that someone had been tramping in the black diamonds.

A widow leading from the shed to the kitchen was also noted, and a few times that had been on the kitchen table were somewhat demoralized, resembling, to a great degree, the purse of a youth who had attended a church fair.

A careful search of the house, however, was made, and nothing missed, the event being enlivened by the remark of the lady of the house that perhaps the intruder had just called in to leave something in order that he might be able to steal something when he again called.

As the lord of the house had been at one time remotely connected with a newspaper there was, it is apparent, no sarcasm intended. The question was: "Where's the man?"

The answer came back "Where?" but the curiosity of the couple was by no means satisfied. Things remained in statu quo until nearly dinner time, when the lady entered the pantry to prepare the meal, and as she reached down a cake that had been baked only that morning, and laid away in all its glory to cool, she discovered that it had been neatly cut in half, only a portion of it remaining on the plate, and by that portion was a somewhat rusty old jack knife that had a mean, skulking, burglar-like appearance.

A further search in the refrigerator revealed the fact that a half-gallon of milk was also conspicuously its absence. Now the question is was it a burglar who "took the cake?"

A Foul Spot.

It is said that there is no longer any doubt of the fact of filth and corruption being the source and support of Asiatic cholera.

Continually there is being urged upon the city officials the necessity of purification, by disinfection and other processes, of all the nooks and corners of the city.

The daily journals are all the time telling us of the danger, and while the facts seem apparent, nothing of any consequence has been so far accomplished.

As it cannot all be accomplished at once, and there must be a beginning, we would suggest a commencement on the east side of the Alta block, on Second South street, where columns of filth are pushed under the public nose at regular intervals, and the health officers appear to ignore the fact of its capacity to generate and feed a moral cholera, much more fatal than the Asiatic. See Tribune.

Lost.

A gentleman's gold enamel pin violet with diamond in center. Lost between corner of First South and West Temple street and the main entrance of Continental hotel.

A liberal reward will be paid for leaving pin at office of Continental.

St. Mary's Academy, Salt Lake City.

(Conducted by the Sisters of the Holy Cross.) Classes for boarders and day pupils will be resumed Monday, Sept. 1st. The course of study embraces all the branches of a thorough and accomplished education.

Languages, General Drawing and Vocal Music being included in the English course form no extra charge. Terms moderate. Small boys, boarders, received in separate department. Half-fare tickets can be procured for pupils.

For catalogue, address as above.

Notice.

This is to inform the public that I have the exclusive patent right and agency for Salt Lake City of N. H. Down's Patent Asphaltum Pavement, and shall regard as an infringement any and all work of this character done by other parties.

Those laying sidewalks and those employing the work done are both liable to prosecution and double expense, as I have full power to collect for all work done here under the above patent.

All orders for this work promptly filled by me.

ELLIS MORRIS, 22 South Temple Street.

What are the desirable qualities in a whisker dye? It must be convenient to use, easy to apply, impossible to rub off, elegant in appearance, and cheap in price.

Buckingham's Dye for the Whiskers unites in itself all these merits. Try it.

Go to Chas. K. Bowring for all kinds of decorating and paper hanging. Old Constitution building, 34 Main street.

The Medicine Man.

A nomadic quack has for two or three evenings drawn large crowds of people around his carriage, which, with four gray horses attached, he has used as a street rostrum, from which he vends his wonderful preparations, warranted to cure every ill that flesh is heir to.

He is well known to the boys, who call him familiarly "Kit," and applaud his ungrammatical jokes with great vociferation.

Last night some 200 people were standing listening to him on Second South street, when the leaders became fractious and caused a general stampede.

The police interfered and ordered the medicine man off the street. He drove into Mark McKimmin's stable, followed by a raft of his admirers, and soon after drove out with only the wheels attached to the carriage.

The police maintained their objection to his remaining in the street, so he betook him to the vacant lot at the side of the Opera House, where he continued his medicinal oration (ill he was hoarse and his pockets were full of cash).

He threatens to hire the biggest hall in the country to express his opinions, so look out!

What's the Matter?

Editors Herald:

As editors are supposed to know everything, I should like to ask you why such men as John Wayman, W. W. Riter, H. J. Richards, L. S. Hills, Thos. McKean, G. M. Ottinger, H. G. Park, have been selected by the Commission as judges of election.

What have they done that they should be thus disgraced? They have always been considered decent men, but if we are to judge of men by the company they keep, something must be radically wrong, for with some exceptions these men and others of their class have been sandwiched in, under most uncomfortable circumstances, among a lot of judges who have no claims of any kind upon the respect of the people.

The Commissioners certainly have strange tastes. FRANKLIN.

Temple of Honor Annual Excursion.

This popular temperance organization has arranged to hold its annual excursion on Monday next, August 4th, at Calder's Farm. They have engaged a fine brass band to discourse music all day.

The programme will include dancing, boating, base ball, an instrumental and vocal concert, &c. This together with the natural attractions of this beautiful pleasure resort should attract a large number of pleasure-seekers as well as the members and friends of the temple.
